PRINCE ALBERT, SEPT. 3, 1895

Twelve hundred people left Toronto on an excursion to see the big Manitoba harvest. It's a beauty and worth the journey.

The National Union Conservative Association of Great Britain distributed upwards of twenty-five million leaflets to the voters; and the Conservatives won. There is nothing that tells like printer's ink, even in politics.

The Queen's speech at the opening of the British Parliament says very little and promises less. Perhaps the Salisbury Government has made up its mind to do more than it promises; its predecessor got into disgrace by promising so much more than it accomplished that a change will be well.

The newest drawback to the Northwest exploited by the earing press is that the railroads will not be able to haul the wheat crop out as quickly as they did in 1894. There is no mistake about the fact, but some will doubt if it is a grievance. The farmer who complains that he has to make two journeys to market instead of one to dispose of his harvest is a rare avis.

The London Standard has authority for saying the Pope may live to be a hundred years old. He has a good constitution, enjoys good physical health, and is in good spirit. His title to a place in the grand old man class is well established, and if he enjoys it for many years the fortune could not fail to a worthy gentleman.

The increase between 1891 and 1895 in the voting population of Quebec is two per cent. larger than in Ontario. At the time of the census of 1891, Quebec, which it is the fashion to call slow, rather surprised the country by showing that in the previous decade it had gone ahead as rapidly as Ontario, which it is the custom to call progressive. When the next census is taken the indication from the above is that it may have done a little better than its big sister, Jean Baptiste has struck his gait.

Livestock exports from Montreal to Europe this season show totals of 58,616 sheep, 53,610 cattle and 7,452 horses. There is an increase over 1894 to the same date of 11,134 sheep, 3,456 cattle and 4,629 horses, and 1894 was one of the big years of the trade. The growth of the horse trade is especially remarkable and indicates the possibility of a constant and increasing market having been found for the leaders product. Pretty much everything that is good, if properly handled, can find a market in Great Britain.

The failure of the English crops is a cloud on the brightening trade prospects that British advices have reported. The farmers on the British Isles have had to fight against the effects of such a series of bad harvests in late years that no one can blame them for almost despairing. In average years their rents and taxes leave little margin of profit when they sell in competition with foreign grain growers but when inferior prices have to be taken for an inferior crop, the outlook becomes sinister indeed.

A letter received by Lieutenant Governor Mackintosh from Sir Charles Tupper, Bart., expressing regret that it was impossible for him to take present at the Territorial Exhibition, also contains the following: "It is no doubt the most important event that has ever taken place in the North West Territories, and I have no hesitation in saying that it will do much to attract the attention of the world to the resources and capabilities of the country. A number of pamphlets issued in connection with the exhibition have been sent to me, and you may rely upon my doing everything I can to distribute them judiciously in the United Kingdom." A gentleman of prominence in railway circles, also writes: "The Territorial exhibition has certainly been a great surprise to everyone. I

am sure you must all feel satisfied, and in fact, proud, that in the face of so many obstacles such grand results are obtained. There is no question but the effect of the exhibition will be of a far-reaching character, and will do more to set people's thoughts towards the possibilities of the Northwest than any other means that has been employed for many a long day."

Dr. Tanner, who was expelled and suspended from the House of Commons, is said to have been much excited during the morning previous to his break. His spirits evidently got the best of him, as they sometimes do of worse men.

Gen. Campos is reported by the telegrams as starting from Havana for Santa Clara with a hundred frenemy. This is a novel way of going into a civil war. Heretofore nothing short of a stream of bullets has been deemed sufficient to suppress the flames of rebellion.

Last week three Presbyterian missionaries left Toronto and ten sailed from San Francisco to take up the work of christianizing China. The mortality in the fighting line is heavy but the supports are not wavering in the advance.

In the September number of the Debilitate which is called the autumn announcement number the display of fashions for the coming season is exceptionally large, and the styles are handsome enough to suit the most exacting taste. Mrs. Pryor's articles on the social code continue, and this month the Debilitate is considered in a most interesting way; Amy Rayson, a famous graduate of Girton college, writes of a girl's life there and at Newham, the two best known English colleges for women. The household departments are well represented in the choosing and preparation of meats, seasonable cookery, etc. Subscription price: \$1 per year, or 15c. per copy. Address all communications to the Delineator Publishing Co. of Toronto, Limited, 33 Richmond St.

Heart Disease relieved in thirty minutes.—All cases of organic or sympathetic heart disease relieved in 30 minutes and quickly cured, by Dr. Agnew's Cure for the Heart. One dose convinces. Sold by J. G. White & Co.

LITTLE BOOKS.—Cotton Mather said that since he had given away many little books God had given to him many great books. Great books have their value, but little books are far more important for common use; and while students may need the great books, the people need the little ones. Busy men and women have no time for long stories. All the books of the Bible, as written, were little books. Thousands of people who cannot read large volumes would gladly read brief pointed tracts and pamphlets. Persons interested in scattering "small books on great subjects," will do well to examine the different numbers of the Anti-Infidel Library, published by H. L. Hastings, 47 Cornhill, Boston. Most of them are 5 or 10 cents pamphlets, in readable type, but so packed with facts that they contain as much information as one would often find in a book costing a dollar. The circulation of some of these publications has been enormous, nearly sixty tons of a single one of these little tracts having been printed. We do not often see "third million" on the title of any publication, but persons who are curious can find it by sending five cents to H. L. Hastings, Boston Mass., for a copy of the pamphlet "Will the Old Book Stand?" or by sending twenty-five cents for an assort'd package of five Anti-Infidel tracts.

For some time past certain dealers have been selling inferior brands of tobacco when "T & B" is asked for, thus not only trading on the reputation of the manufacturers but also injuring the sale of the article. The Geo. E. Tuckett & Son Co., of Hamilton, have taken the matter in hand and intend prosecuting the offenders. Smokers should be careful to see the "T & B" stamp on each plug as, to gain extra profit, unscrupulous dealers tear the tag of other brands and say it is "T & B" and "just a good."

Belleville, January 4th, 1894
Messrs. Dick & Co., Montreal
"Dick's Blood Purifier" is the best of all the condition powders I ever used. It makes a horse thrive and feel well, improves his coat and keeps him perfectly clean in the legs, no matter how long he stands in the stable! I gave half of the first box to a gentleman who had a fine trotting stallion that had swollen in the legs, and had scratches from being out of condition, and in a few days his legs were perfectly clean, and the cracks healed rapidly.

JOHN JOHNSON.

SPAVINED HORSES.

The buyers for foreign markets do not want blemished horses at any price. Spavins, Curbs, Ringbones, etc., can be entirely cured by "Dick's" Blister. Price 50 cents. "Dick's" Liniment is invaluable for sprains and bruises. Price 25 cents. To be had at all druggists. Full direction on the wrapper.

But 4 Bottles of Hood's Sarsaparilla
Cured.

"It is with pleasure that I tell of the great benefit I derived from Hood's Sarsaparilla. For 3 years I have been severely afflicted with Erysipelas.

Breaking out with excoriating sores during hot summer months. I have sometimes not been able to use my limbs for two months at a time. Took Dr. Agnew's Cure for the Heart, and after a battle last spring, came out triumphant. It is much better, and two bottles more; took them now and then during the summer, was able to do my work.

TOWN AND DISTRICT

What about that Watch of yours? If it troubles you, then bring it to a practical man and have it fixed right at Geo. W. Baker's.

Geo. W. Russell left for Montreal, Thursday last with several car loads of cattle.

Mr. Simon Fraser, who has been on a visit to Manitoba for the past month returned home Saturday evening.

Mr. Justice McGuire leaves for the east on Thursday next. He will be accompanied by his son who is returning to college at Toronto.

The people of Harpersville are holding a picnic on the 13th inst. The programme will consist of dancing and games with a concert in the evening after which there will be more dancing.

W. T. Gillmor has opened out his new outfit of furniture, the greater portion of which is offering at way down prices. Read his advertisement in another column and give him a call. He will be pleased to show the stock whether you purchase or not.

At the Queen's—B. F. Atcher, Mrs. Stevenson, Moose Jaw; Mrs. Howard and grandson, St. Louis de Langevin; C. E. Dixon, Winnipeg; R. J. McMillan, Seaford, Ont.; Wm. Waddell, Lily Plains; G. McMichael, Seaford, Ont.; J. H. Price, Puckahn; S. H. Gordon, Fort la Corne.

Contractor Congdon having completed a fine piece of stone and brick work on the H. B. Co.'s new mill, has commenced operations on the foundation and basement of the new brewery for the Messrs. Wittman. This will be quite a large undertaking and the contractor will have to hustle to complete before cold weather sets in.

Mr. R. Sutherland, merchant tailor arrived back from Ontario by his Saturday's train, bringing with him Mrs. Sutherland and two daughters. Two other of his daughters are expected in shortly, and on the arrival of the stock, a millinery and dress making establishment will be opened out in the premises occupied by Mr. Sutherland's tailoring establishment.

At the Royal Hotel—Jas. Brooks and wife, Miss Brooks, John Brooks, Leggville, Col.; W. Crawford, D. McIntosh, Regina; R. Bradshaw, Toronto; J. P. Smith, Montreal; R. S. Sutherland and wife, Misses B. and Z. Sutherland, Strathroy, Ont.; J. P. Callon, T. Vance, Moose Jaw; M. Campbell, A. McDonald, Saskatchewan; Major Hoey, Brancapeth.

Yesterday was Labor Day here, and was generally observed as a holiday all places of business being closed. The livery stables done a good business, every available vehicle being called into requisition, and even then many had to go without. The attraction of the day, however, was the tripping toad from Maple Island on the handsome new pleasure yacht, the Northern Belle, which was well patronized.

Mr. Jas. Brooks, accompanied by his wife, daughter and son, arrived here last Tuesday, and intend making their home in this district. They came from Leggville, Col., where Mr. Brooks resided for a number of years. On deciding to return to Canada he picked on Prince Albert as the place to come to, and we believe he has chosen wisely. Mr. Brooks has leased Mr. W. Tait's farm, about ten miles south of the town, and will take up his residence there very shortly. We wish him all success.

Capt. Smith and the yacht Northern Belle had a busy time yesterday afternoon carrying passengers between the town and Maple Island. The number carried amounted to nearly 200, and those who enjoyed the trip were loud in their praise of the gallant little ship and its skipper, who was kind and courteous to all. By invitation, the members of the band made a trip to the island, where they remained an hour or more and added greatly to the enjoyment of those who were there. We are pleased to hear that as well as giving the boys a complimentary trial, the captain called on the secretary, and donated \$5 to the funds of the band. We hope to see the council take immediate steps towards the clearing up of the island, as yesterday's exertion proved conclusively that as a summer resort these grounds would be extensively patronized by the citizens. We understand it is the intention of the owners of the Northern Belle to build a pleasure barge to be used in connection with the yacht next summer.

H. L. INGRAM,
Secretary.

At the recent opening of the Legislative Assembly at Regina the first business done was the election of a Speaker to take the place of Mr. Ross of Moose Jaw, who had accepted a position on the Advisory Board, when

Mr. J. F. Batts, member for Prince Albert East, was unanimously elected.

Mr. Haultain, in making the motion,

ended in flattering terms to Mr. Batts' long service in the Assembly

and his attention to duty, which he

said were assurances that the new Speaker would carry to the position an adequate knowledge of the rules of the House and the responsibilities of the honorable post.

THE TIMES extends its hearty congratulations to Mr. Batts on this well merited honor.

Band Concert.

The concert in aid of the funds of the town band came off last evening in the town hall, and taken altogether was quite a success. The attendance was very good, considering that rain began to fall about the time people should have been leaving home for the hall and continued till about 9 o'clock when it cleared off and allowed the moon to shine forth with unusual brilliancy for this season of the year.

The programme was a lengthy one and judging from the rendering of the many difficult and beautiful pieces of music, readings, etc., showed that considerable care had been bestowed on them by the ladies and gentlemen who took part in the evenings entertainment, each and all being heartily encored. Mrs. Young was the accompanist, and needless to say, performed her part in this lady's usual masterly and acceptable manner. His Worship Mayor Davis occupied the chair, and performed his duties in his usual agreeable manner. The following is the programme as carried out:

Vocal solo, R. McKay; Cornet solo (comic) Prof. Jenkins; Vocal solo, Mr. Geby; Inst. duet, cornet and baritone Messrs. Bird and Nelson; Reading, Mr. Rose; Vocal solo, Miss Pritchard; Piano duet, Miss Flanagan; Vocal solo Mrs. Mack; Intermission, P. A. Band Piano duet, Misses Macdonald; Vocal solo, T. E. Parker; Vocal solo, Miss Macdonald; Inst. duet, piano and violin, Miss Flanagan and Mr. Way; Vocal Solo, Miss A. C. McGregor; Recitation, Miss Armstrong; Vocal solo, Miss Reid. God Save the Queen brought the entertainment to a close at 10:30 o'clock.

What everybody says must be so that the best Stationery and Jewellery is to be had at Geo. W. Baker.

The smallest known insect, the pterostoma putnami, a parasite of the ichneumon, is about one-ninentieth of an inch in length.

The blood vessels in the white of the eye are so small that they do not admit the little red corpuscles to which the color of the blood is due.

Symptoms from neuralgia are warned by a medical writer not to drink tea, but to drink freely of coffee into which the juice of a lemon has been squeezed.

The lightest metal known is lithium. Its specific gravity is only about one-half that of water, and of course it floats. It has little use in the mechanic arts, its chief employment being a medicine.

Blood travels from the heart through the arteries at the rate of about twelve inches per second; then through the capillaries at the rate of three one-hundredths of an inch per second.

We first lay down the sun and then place the earth one inch from it, that being the relative distance; then if we inquire at what distance to put the nearest fixed star, using the same scale, we will find that it must be placed at a distance of eleven miles.

NOVELTIES IN JEWELRY.

A BRASS camel bearing its lamp, burden between its horns is a novelty, and a bronze elephant supporting also a light-giving howdah is another.

One of the most curious rings seen lately is of aluminum with a very dark ruby set in it. The ring looks almost black, and it is only at night that the stone is at its best, and impresses one with great beauty.

RAILWAY LANDS.

To the Editor of the Times
Sir.—I commend to the serious attention of your readers the following paragraph from a well-informed contemporary:

Mr. Broden and party, land agents for the Canadian Pacific were in Winnipeg last week. They began work north of Carlton, and are now engaged in the task of having to locate half a million acres of land for the grant made to the Pipestone branch. The work of the government may be that no more land grants was not arrived at too soon, and it was a most unfortunate mistake. The Canadian Pacific and other companies were not required to take their lands along the line of their roads. Mr. Broden's idea is to have the Pipestone branch run through the country as being watered with the finest springs and spring creeks that he ever saw, and with an unlimited supply of hay—altogether a paradise for ranchers. And the Northwest has to give this man a hand.

A good deal of it has not even a political interest.—Battlefield Herald.

The Pipestone country is somewhere in the Southern part of Assinibina, between the C.P.R. main line and the International Boundary. It would appear the land there is good enough to build a railway through, but not such as the C.P.R. people will accept in satisfaction of their subsidy, and so they are to be allowed to come into Saskatchewan and attach the best of the remaining odd sections into a district—hundreds of miles away from their line—a district which they have never benefited by the value of a single cent, but on the contrary have deliberately and persistently opposed and sat upon. But have the people no rights? Is there no such thing as the public interest? And is the Federal Government, as trustee for the whole Northwest Territories, justified in giving away lands in Saskatchewan to satisfy a railway grant earned in Southern Assinibina? Our district has suffered a good deal in times past—more perhaps from neglect and indifference than from active hostility—but it would seem we are now to be subjected to actual spoliation as well. If the lands in question were to be granted to a railway to be built through the district in which they are situated there would be no objection, but to give them away to a hostile company for building a branch line 200 miles to the south is simply monstrous. Only the other week, the Dominion Parliament granted a charter for a road proposed to be built from Quebec by Cumberland and Prince-Albert westwards, with a branch to Hudson's Bay. This is something like what the Saskatchewan settlers want and absolutely require if they are ever to get a fair chance to develop their grand country. And yet, here is the deadly enemy of every road except its own allowed to come into our midst and, without building or proposing to build a single yard of road within hundreds of miles of us, to pick and choose the best of the available lands on the most valuable part of the route and so to virtually block the way of any line through the Saskatchewan Valley and hold us down to our present semi-helpless condition.

I see from the newspapers that with in a few days or weeks, Prince Albert is to be honored by a visit from the Premier and the Minister of the Interior. Would it not be well for the people of Saskatchewan to make their views on this subject plainly known to these statesmen and so, if possible, prevent the consummation of a great injustice?

C. Wingard, 25th August, 1895.

The Holmes Butcheries

INDIANAPOLIS, Ind., Aug. 30.—More evidence has been secured in the Holmes tragedy, every detail showing that the Pitzen boy was murdered in the cottage at Irvington, by H. H. Holmes, and the body burned in a stove at night, and the charred bones jammed into a chimney hole. It was learned yesterday that the trunk which mysteriously left the hotel, was taken to Irvington by train and from the platform removed by Holmes to the house. It contained the clothing of the girls, which he wanted to dispose of before taking them to Toronto where they were murdered. Mrs. Pietzel, mother of the murdered boy, was telephoned at Galva, Ill., and identified the trunk, and the boy's coat. The other articles which belong to him have also been found in the chimney hole. Coroner Carter took charge of the bones, and held an inquest, at which the officers and others testified. The grand jury is in session and Judge McCray ordered it to proceed at once to taking testimony, and to day witnesses will be examined in court. It is said every effort will be made to bring Holmes here for trial.

For some time past certain dealers have been selling inferior brands of tobacco when "T & B" is asked for, thus not only trading on the reputation of the manufacturers but also injuring the sale of the article. The Geo. E. Tuckett & Son Co., of Hamilton, have taken the matter in hand and intend prosecuting the offenders. Smokers should be careful to see the "T & B" stamp on each plug as, to gain extra profit, unscrupulous dealers tear the tag of other brands and say it is "T & B" and "just as good."

The Manitoba Free Press in speaking of the Uxbridge Piano says: They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright piano is thrown into the shade. The Uxbridge Piano has a continuous book rack which will be appreciated in the playing of duets; sitting down to the piano the performer touches a lever and the keyboard is uncovered, and the hinges of the lid turn out of sight, and the instrument presents the same artistic appearance when open as when shut. The Organs manufactured by the Uxbridge company have been in use for over twenty years, and require no special description as they are so well-known and liked in the homes of the thousands over the whole world. However, the company is manufacturing a six Oct. Organ in Piano case which is having a wonderful sale. The Pianos made by the Uxbridge Piano Co. are a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.

THE TRIUMPH OF LOVE

THE HAPPY FRUITFUL MARRIAGE!

Every Man Who Would Know the Grand Truths; the Plain Facts; the New Discoveries of Medical Science as Applied to Married Life; Who Would Avoid Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "COMPLETE MANHOOD and How to Attain It."

Here at last is information from a high medical source that must "work wonders" with this generation of men.

The book fully describes a method by which to attain full-vigor and manly power.

A method by which to end all unnatural diseases on the system.

To cure nervousness, lack of self-control, dependency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Ago no barrier. Failure impossible 2,000 references.

The book is "purely medical and scientific," useless to curiosity seekers invaluable to "men only who need it." A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug every body and tell them my old self had died yesterday and my new self was born today. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a carload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIC MEDICAL COMPANY, Buffalo, N.Y., and ask for their little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

A boon to horsemen.—One bottle of English Spavin Liniment completely removed a curb from my horse. I take pleasure in recommending the remedy, as it acts with mysterious promptness in the removal from horses of hard, soft or calloused lumps, blood spavin, splints, curbs, sweeneys, and sprains.
